Some children can escape their car seat as early as one year old!

You don't have to worry about your child escaping anymore! A Chest Clip Guard and Buckle Guard keep your child safe and comfortable in their car seat.

A Chest Clip Guard prevents the child from pushing the chest clip down, or unbuckling the chest clip.

A Buckle Guard prevents the child from pushing the release button on their car seat harness buckle.

THE CHEST CLIP GUARD & BUCKLE GUARD

Designed to prevent the occupant from unbuckling or pushing down the chest clip or releasing the harness buckle on their car seat.

CHEST CLIP GUARD

BUCKLE GUARD

Why Merritt?

At Merritt, our first priority is safety. We have designed unique solutions to keep little ones safely restrained in their car seat.

Safety comes first but comfort is important as well! Our products have been designed for safety and comfort. The Buckle Guard and Chest Clip Guard are just as comfortable for the child as their conventional car seat harness buckles.

Our customer service team is happy to answer any questions or concerns regarding your unique situation. Call 317-409-0148 to speak to a Merritt representative.

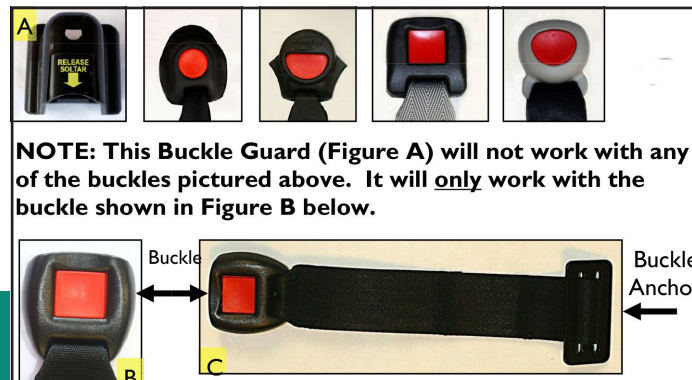

- Safely prevents the child from sliding down or unfastening their car seat chest clip.
- For use with children who can escape their car seat or for children with special health care needs.
- The chest clip can be opened using the provided plastic “key”.
- In an emergency, any key can open the clip.
- Installed on current car seat straps but in place of the original chest clip.
- Can only be used on car seats that feature a splitter plate on the harness (found on the backside of the car seat).

- Safely prevents the child from releasing their car seat buckle.
- For use with children who can escape their car seat or for children with special health care needs.

Two ways to release the buckle after installation of the buckle guard:

- Slide thumb under the guard and push the release button.
- Use the provided tool to open the buckle.
