(GO TO NEXT PAGE)

*** The Attachment Bracket Kit is designed for use in vehicles that do not have LATCH. The Chamberlain must be installed with LATCH or with the Attachment Bracket kit. All Vehicles 2003 and newer are equipped with LATCH in at least two rear seating positions, so there should be no installation issues for these vehicles and the Attachment Bracket will not be necessary. Many 2000 - 2002 models also have LATCH (See your vehicle owner's manual to verify if LATCH is present).

For vehicles without LATCH, the attachment bracket can only be used on vehicle seats that you can slide a ruler, or similar object, from the back side of the vehicle seat through the crack in the vehicle seat (where the seat bottom and seat back come together) through to the front side of the seat. This can usually be done in mini-vans and SUVs. Generally, the Attachment Bracket cannot be installed in the back seat of sedans. Installation of the Attachment Bracket Kit does require that a hole be drilled through the vehicle's floor board.

Please call Customer Service at 317-409-0148 with any questions regarding the installation of the Chamberlain.

Shipping charges – The cost of shipping "Best Way" will be added to Purchase Orders.

Please place orders by one of the following methods:
